**TUITION REIMBURSEMENT
FOR NON-COLLECTIVE BARGAINING UNITS**

Effective to July 1, 2015:

Upon approval of the SUPERINTENDENT or designee, the BOARD will reimburse each EMPLOYEE the actual amount of tuition paid, not to exceed 25% of the resident tuition rate established by the Florida State Board of Regents, for each semester hour taken in an area which may improve his/her overall value to the District. The determination of potential for improving the EMPLOYEE's overall value to the District is solely at the discretion of the Superintendent or designee. To be eligible for reimbursement, the EMPLOYEE must have completed three (3) consecutive years of service in the District. EMPLOYEES shall be reimbursed for no more than 12 credit hours per school year, up to a maximum of 36 credit hours total while employed by the District.

SALARY ADMINISTRATION GUIDELINES FOR NON-COLLECTIVE BARGAINING UNITS

New Hires

The rate of pay for newly hired employees should generally be at the minimum rate of the assigned pay range to ensure equity with current employees with greater tenure in similar positions. Salary placements will be based on related experience and internal equity. Based upon school/department needs and employee qualifications, initial placement could be made above the minimum rate. This allows management reasonable flexibility in the recruitment process, while maintaining reasonable controls for maintenance of an equitable relationship between new and existing employees.

Current employees moving from a bargaining position to a non-bargaining position

It is highly recommended that you contact the Director of Compensation before you accept a new position so that you can be given a salary quote. The rate of pay for current employees moving **from a bargaining position to a non-bargaining position** will be at the minimum rate of their newly assigned position or a 5% increase to their base hourly rate (non-exempt) / daily rate (exempt), whichever is greater. If the employee has previous related experience that is comparable to the level and position being promoted into, consideration will be given for prior verified experience.

PLEASE NOTE: *If the salary causes disparity among other employees in the same classification based on applying the language in this section, then the salary will be based on related experience and internal equity. Salary placement decisions take into consideration the maintenance of internal equity with current employees that have greater tenure in similar positions.*

Promotion

It is highly recommended that you contact the Director of Compensation before you accept a new position so that you can be given a salary quote. If your current hourly/daily rate is at or above the minimum of the salary range that you are applying to, promotion language may not apply. The rate of pay for current employees promoted within the non-collective bargaining unit to a position one or two salary ranges higher than their current position, will be at the minimum rate of their newly assigned position or a 5% increase to their hourly (non-exempt) / daily rate (exempt), whichever is greater. ***PLEASE NOTE:*** *If the salary causes disparity among other employees in the same classification based on applying the language in this section, then the salary will be based on related experience and internal equity. Salary placement decisions depend largely upon maintaining internal salary equity with current employees that have greater tenure in similar positions.*

It is highly recommended that you contact the Director of Compensation before you accept a new position so that you can be given a salary quote. If your current hourly/daily rate is at or above the minimum of the salary range that you are applying to, promotion language may not apply. The rate of pay for current employees promoted within the non-collective bargaining unit to a position three or more salary ranges higher than their current position, will be at the minimum rate of their newly assigned position or a 10% increase to their hourly (non-exempt) / daily rate (exempt), whichever is greater. ***PLEASE NOTE:*** *If the salary causes disparity among other employees in the same classification based on applying the language in this section, then the salary will be based on related experience and internal equity. Salary placement decisions depend largely upon maintaining internal salary equity with current employees that have greater tenure in similar positions.*

**SALARY ADMINISTRATION GUIDELINES
FOR NON-COLLECTIVE BARGAINING UNITS**

Demotion

Upon voluntary demotion to a classification with a lower salary range, employees should be placed in the new range at the same relative position held in the previous pay range, limited by the established minimum and maximums for the new salary range. If the relative position causes disparity among other employees in the same classification, the salary adjustment will be based on related experience and internal equity. Upon involuntary demotion to a classification with a lower salary range, salaries would be set on a case-by-case basis.

Lateral Transfer

Upon transfer to a position classified at the same level, the employee's range and salary level placement should not be changed.

Re-evaluation

Upon re-evaluation to a higher level (upgrade), salaries should be adjusted to that salary level which is in the same relationship to the minimum of the current salary range. In other words, re-evaluated employees should receive the full benefit of any upward adjustment in the assigned pay range. This allows recognition of an employee's earned relative position in the range. The salary increase will be based on related experience and internal equity. Re-evaluation to a lower level (downgrade) should result in salary placement within the new range equal to the current rate of pay. Downgraded employees with current salaries above the maximum rate of the lower pay range should be frozen, until such time as the range is adjusted upward sufficiently to induce the salaries.

Rehire

Upon rehire to the same position after a break in service, employees should be placed at the same rate previously held, limited by the established minimum and maximums for the salary range. Grandfathered longevity supplements are not applicable after a break in service.

Upon rehire to a different position after a break in service, placement would follow the regular New Hire placement language.

Exceptions may be made at the discretion of the Superintendent.

COMPENSATION FOR MANDATORY COURT APPEARANCE WHEN OFF CONTRACT

Legal Services will verify with the employee's department/school that the employee had to be present in court. Legal Services will send via email, memo, etc. the following: employee(s) name, social security number, account coding, days and hours spent in court. The department/school would then email Compensation with this information. Travel to/from court will not be compensated. Employees will be paid as supplement at their hourly rate of pay.

ERRORS IN COMPENSATION

In the event an employee is overpaid or underpaid, the overpayment or underpayment adjustment will be calculated for two years from the date of discovery of the error. If the error has occurred for less than two years, then the adjustment will be made for the entire period of time. The period of time set forth in this provision shall supersede by agreement any other statute of limitations that might otherwise exist in law.

ANNUAL CONTRACT CALCULATION METHOD

The method of calculating an annual contract for the various contract lengths is shown below:

Number of contract days X Daily Rate
Monthly rate X 12 / 250 X Number of contract days

LEAVE ACCRUALS

All employees earn leave in days as provided in the Florida Statutes. A day of leave is equivalent to a day of work. Therefore, a day of leave for a given employee is equal to the hours an employee is scheduled to work. For example, a day of sick leave for a four-hour per day employee is equal to four hours. A day of sick leave for an eight-hour per day employee is equal to eight hours.

In general, a day of sick leave is earned for each month of work. A 196-day contract teacher earns ten (10) days of sick leave per school year. However, the legislature has provided that school districts shall post four (4) days of sick leave after the first day worked by instructional personnel. The remaining six (6) days of sick leave are posted at a rate of one (1) day per month for the next six (6) months. In a similar fashion, non-instructional personnel receive four (4) days at the completion of the first calendar month of employment, as provided in state law. However, in some situations, the district provides the four (4) days at the conclusion of the first day worked.

Since employees have sick leave days advanced to them before the days are earned, it is possible to use sick leave before it is earned. In the event that an employee terminates his/her employment before he/she completes his/her contract, an adjustment will be made in the final payment to limit sick leave use to the earned amount.
