**Implementation**

Implementation of the use of iPads in the classroom will follow Collier County Public Schools (CCPS) procedures, including:

- iPads will use the CCPS WiFi network and will encounter the most restrictive level of filtering the school district offers, compliant with the Children’s Internet Protection Act.
- All iPad users agree to comply with the school district’s Network and Internet Acceptable Use and Safety policy.
- All apps will be approved by the school district prior to use in the classroom.
- Certain iPad features, such as camera usage or recording capabilities, may be disabled.
- Class sets of iPads will remain in designated classrooms and secured nightly.
- Students will have access to CCPS’s learning management system (ANGEL) and eSembler gradebook, as well as academic content.

**Partnership Benefits**

We are looking to create partnerships which will provide resources for targeted students in need of help in each school. As a special school district partner you will receive:

- Business name/logo on iPad docking station
- Recognition on school and District websites
- Recognition at the school (i.e. marquee)
- Registration as a school district partner
- Featured spot in iNews (26,000 email recipients)

**Adopt a School**

Learn more about how you can adopt a school to help us purchase iPads for our students.

**HIGH SCHOOLS**
- Barron Collier High School
- Everglades City School
- Golden Gate High School
- Gulf Coast High School
- Immokalee High School
- Lely High School
- Lorenzo Walker Technical High School
- Naples High School
- Palmetto Ridge High School

**MIDDLE SCHOOLS**
- Corkscrew Middle School
- Cypress Palm Middle School
- Golden Gate Middle School
- Gulfview Middle School
- Immokalee Middle School
- Manatee Middle School
- North Naples Middle School
- Oakridge Middle School
- Pine Ridge Middle School

**TO LEARN MORE**

Contact Collier County Public Schools’ Superintendent, Dr. Kamela Patton, at superintendent@collierschools.com

---

“iPads are a part of our world. I know it would help if we got to use them in school because that’s how we learn and create stuff outside of school.”

-Michael Dami (8th grade)
North Naples Middle School

---

Teach me in my world.
You can make a difference!
Help us meet our students in their digital world by enhancing the technology they use every day.

iPad apps and web-based interactive software are available as learning tools for students in Life Sciences and Biology.

Having iPads in the classroom will make additional tools available while enhancing the existing resources used by Collier County Public Schools.

iPads will support our students as they work to absorb the vocabulary and knowledge needed to be successful on state assessment tests.

Using an iPad will also help them better handle the rigorous coursework offered daily in today's classroom, specifically:

- Life Sciences (7th grade)
- Biology (high school)

WHAT'S NEEDED
- Classroom sets of iPads (30 per set)
- Docking station with Mac Mini for each set
- Protective cases for each iPad
- Insurance protection

FEATURES
- Fully online “digital textbook”
- Access text, video, animated vocabulary, hands-on labs, virtual labs, assessments, and more.
- Teachers can “push” specific content to targeted students, depending on their needs.

FEATURUES
- Access to “digital textbook” with full audio
- Highlighting available

“Teach me in my world”

“There’s an app for that...”

Help our students become even more engaged in learning.
