

Dismissal Procedures for Golden Terrace Elementary

The following procedures have been established to provide a safe and efficient dismissal for all students. Please read the dismissal procedures for **walkers and bikers**. Please adhere to them.

- **Walkers** and **bikers** will be released at the North gate near the PK playground. **No parking** is allowed to pick up students in the walker area (unless under severe weather conditions). This impedes the functioning of school routines and the safety of students. The Sheriff's department will issue a ticket.
- As a courtesy to parents, for younger children, we will hold the child in the walker area until they see a parent or designated adult/sibling to walk with them. Please notify your child's teacher if you wish for them to be held until someone comes for them.
- If you request that the student be held for someone to walk with them, if no one comes by 3:10, the student will be placed in the car rider line to wait for the designated person to pick up from the office. The individual will be asked to provide identification to the office personnel and must be listed on the pickup form provided by the parent/guardian when registering the student before a student is released.
- When severe weather threatens, **all** students will be kept under cover and will not be released until the weather clears or an adult picks them up. No GTE students will be able to walk home during severe weather conditions.
