

Mathematical Practice Standards

1

I can understand problems and solve them using strategies without giving up.

2

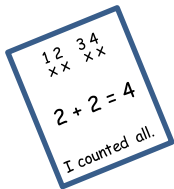

I can use numbers and symbols to show what is happening in situations.

3

I can explain my thinking and agree/disagree with others.

4

I can show my thinking using pictures, numbers, and words.

5

I can choose tools and use them to help me solve problems.

6

I can work carefully, double-check, and clearly explain my thinking.

7

I can find patterns and use them to solve problems.

8

I can find efficient ways to solve problems.
