

*It is an honor to continue as the principal of Everglades City school where we LEAD to SUCCEED. Here we Learn, we Encourage, we Aspire and we Dream. We will continue to promote rigor in our classrooms as we move our children forward to reach the academic goals we have set for them. All of our faculty and staff truly believe our students can be as successful academically as any students in our county. Our Leader in Me program will strive to develop strong leaders in our students body who will become productive members of our community and lifelong learners. Your continued support at home will help us move even further ahead. Go Gators*
