Did you know that you can track your child's bus?

CCPS is now offering the "Where's the Bus" app to provide parents and students with timely information about the location of your child's bus. Using GPS technology, this app will show you and your child how many more miles your bus is from the bus stop.

The "Where's the Bus" app is free to CCPS families whose children ride the bus. The app is available on all devices with internet access (smartphone, tablet, iPod, personal computer, etc.) and takes less than five (5) minutes to install. This app allows you to know if the bus on time or late and it projects how long it is from your stop.
