

CCPS SAFETY INFORMATION

CCPS Safety Update #2 February 16, 2018

We are mindful of the difficult events that have unfolded over the last few days. The safety of our students and staff remains a top priority of the District and all threats are taken seriously and immediately investigated. We remain in constant communication with our law enforcement partners to make sure each student and staff member remains safe. All threats, verbal, written, and electronic (for example, Instagram, Facebook, Snapchat, Twitter), are immediately reported to law enforcement. We cannot provide information regarding individual incidents pertaining to student discipline and placement since it is part of the academic record which is protectable from disclosure under Federal and State law.

Please know that teachers, counselors, and administrators at schools are available to support students. Students should reach out to an adult with any questions or concerns. We need the collective support of parents and other caring adults in students' lives to monitor their written and electronic communications. We encourage students, parents, and the entire community to be proactive in keeping our children safe. "If You See Something, Say Something." No concern is too small. Please remind your children of this message as we do in school. For more resources on how to support children, particularly at times like this, please [click here](#) to visit our CCPS Safety Information page.

Kamela Patton, Ph.D.
Superintendent
Collier County Public Schools
