Advanced Placement

Advanced Placement courses are **College Level** courses receiving .08 weighting if the final grade is a "C" or better. Advanced Placement courses are a full year commitment, once the commitment is made there may be circumstances under which it would not be possible to drop the class without facing the consequence of either a withdraw passing or withdraw failing. If leaving the course for a level change the grade received to the point of withdrawal will be transferred into the new course. If experiencing difficulty in an Advanced Placement course a conference must be held with the student, parent, teacher and administrator. There may be periods when difficult material is being taught – giving up is not the answer. Seeking help and learning new study methods usually remedies the temporary frustration level.

Teacher recommendations will be based on previous grades and historic test data.
