

MIDDLE SAMPLE SCHEDULE

CCPS CLASSROOM CONNECT

Josh is a seventh grader in the innovative CCPS Classroom Connect model. He has seven classes, and all of his teachers have one or more Classroom Connect sections from their physical classrooms in which all of the students are at home.

Each student has a Collier Connect laptop and received Internet access support if needed. Each class will begin through video conferencing and will students receive direct instruction from their teacher and have opportunities for guided practice in small groups.

Students will work independently, and with classmates, on assignments; students may use consumable workbooks they picked up with their laptops and then each teacher will wrap up the lesson.

The daily schedule will provide time for breaks in between classes and lunch, just like on campus!

NOTE: This is a sample, as teachers' plans and instructional delivery may vary.

8:55 am	Josh finds a quiet and comfortable spot at home to learn
9:05 am	Josh logs into Canvas at the time the first bell rings; he selects his first class, Life Science, from his Canvas dashboard. He clicks on the live lessons link to access the video conference for the day; Josh sees his Life Science teacher, Mr. Nunez, in his classroom. Mr. Nunez greets the students in the video conference. Josh can see and hear Mr. Nunez.
First Period	Josh and his classmates tune in to school-wide morning announcements before engaging in a variety of science activities including direct instruction from Mr. Nunez, interacting with other students in small groups, and working independently. The students use the workbooks they were provided when they picked up their Collier Connect devices. <i>3 minute break before 2nd period</i>
Second Period	Josh logs on to his Cambridge English Language Arts (ELA) and engages in a variety of ELA activities including direct instruction from Ms. Smith, his ELA teacher, interacting with one another in small groups, and working independently. The students use the workbooks they were provided when they picked up their Collier Connect devices. <i>3 minute break before 3rd period</i>
Third Period	Josh is excited for his next class, Entrepreneurship, and his ELA teacher, Ms. Smith, teaches this class also. Ms. Smith presents a new concept, and then Josh and his classmates break into small groups. Ms. Smith regroups everyone at the end of the period to summarize and prepare the class for the next day. <i>3 minute break before 4th period</i>
Lunch (30 minutes)	Josh is ready for his lunch break! He may have something prepared at home or his "grab and go" lunch from school that he picked up this morning with his parents. After he eats lunch, Josh takes some time to read a book or get organized for the afternoon. He sets an alarm so he is not late to join his next class.
Fourth Period	Josh joins Band class, his second year playing the clarinet, and his band teacher, Ms. Harmony, has about 10 minutes of direct instruction and then assigns independent practice for 20 minutes. Everyone then rejoins for the remaining 15 minutes. <i>3 minute break before 5th period</i>
Fifth Period	Time for Social Studies! Josh and his classmates join Mr. Brown for Civics as he presents today's concept and breaks students in to small groups. Later, they have time to work independently. Mr. Brown pulls everyone together again to wrap up the day's lesson. <i>3 minute break before 6th period</i>
Sixth Period	Josh and his classmates join Ms. Gomez for math, and after a brief introduction, students break into groups to continue their projects. Ms. Gomez reconvenes the students for 10 minutes at the end of class to check on their progress. <i>3 minute break before 7th period</i>
Seventh Period	Josh ends the day with Physical Education (PE). Coach Jones leads the class through some warm-up activities and a brief lesson on health education before assigning an independent activity that can be done at home. Students log back in for a 10-minute "cool down" led by Coach Jones.
3:50 pm	Josh organizes his workspace to be ready for tomorrow's Classroom Connect.
