

eCollier Academy – Flexible Model Middle School Schedule

Middle school students will have one assigned teacher per course. Students will complete self-paced lessons and have the option to attend live chats with teachers at pre-determined times. Students must be enrolled in seven courses which coincide with courses that are grade-level appropriate based on the CCPS Student Progression Plan.

Students are required to complete a minimum of 25 hours per week of virtual learning. This model allows students the flexibility to complete the lessons and assignments outside of the traditional bell times for their particular grade level.

Core Courses (ELA, Math, Science, Social Studies) and Electives

- 4 to 6 hours per course weekly
- 2 to 4 assignments per course per week

Parent Engagement

- It is recommended that parents partner with the teacher as a learning coach or guide – this is an average commitment of up to 2 hours per day, depending on the student. Parents can support learning by assisting with the following:
 - Monitor student daily
 - Maintain weekly progress
 - Ensure content mastery
 - Help with course navigation

All eCollier Academy students are to maintain the CCPS weekly pacing guide requirements per course and grade level. Teachers will provide guidance on pacing to parents.
