

# Newsletter School Year 2020-2021, August vol. 1

## Principal's message

Welcome to an exciting new school year at Immokalee High School!

In March of 2020 our world as we know it changed and we had to adapt to a different learning environment. We all pulled together as a community, supported one another and made online learning possible for all students while remaining at home. We are very proud of you.

As we continue, the most important tasks ahead of us is to provide education excellence in the safest environment possible for our students and faculty. In order to do this, we are depending on all to do their part to ensure that we follow and model current safety guidelines.

As safety is our priority, we have arranged classroom seating necessary to mitigate distancing requirements. Students will be asked to adhere to new transitioning traffic flow in the hallways/stairwells between classes, as well as wearing mandatory facial covering while on our campus. It is also important that once ID badges are distributed, students wear it while on campus.

Our goal this year is to provide our students with a normal high school experience under these unprecedented times. While our student demographics has increased this year, we are prepared to provide students a face to face and virtual education as approved by the district. We have implemented three lunch periods to reduce the number of students in the cafeteria and courtyard areas. All classrooms will have hand sanitizers, cleaning products. Our custodial staff have transitioned from daily cleaning to regularly disinfecting all areas.

Administrators and counselors are working diligently to finalize class schedules that will be available in the student online portal before August 31st. We ask for your support so that learning can continue in the classroom in a safe environment.

We have all missed you and look forward to once again put learning at the heart of everything we do!

Go Indians!

Clara Calderon, Ed. S.

Principal
