Registering an Android device for CCPS Wi-Fi Access

1. On your Android device, open your Wi-Fi Settings and connect to the “CCPS” Wi-Fi network.

2. Your internet browser should automatically open and display the registration page.

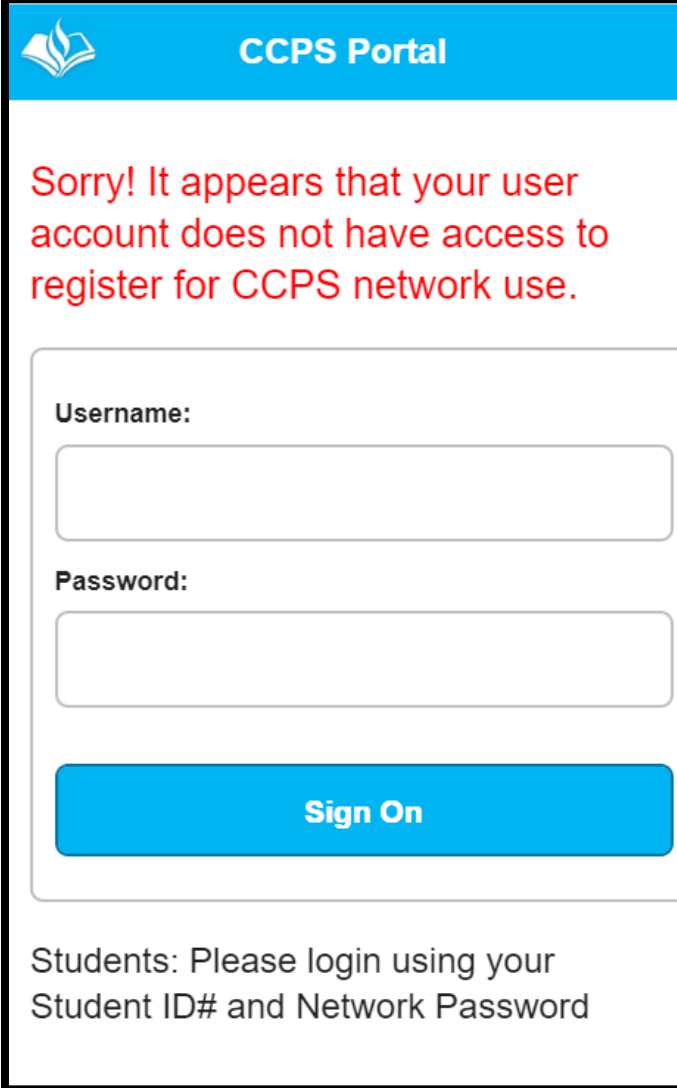

3. Enter your username and password when prompted. After successfully logging in, you will be automatically disconnected and reconnected to the CCPS Wi-Fi network with access to the internet.

Note: If the login page does not open automatically (or if your device displays a Certificate warning), open your internet browser and manually navigate to <http://www.ccps> as shown in the images below. This should redirect you automatically to the correct login page.

Other Troubleshooting Tips

- Students: If you are not authorized for CCPS Wi-Fi access, you will see the screen below - error means that your parent/guardian will need sign into the CCPS Parent Portal and authorize your access by accepting the Wi-Fi agreement.

The image shows a screenshot of the CCPS Portal login interface. At the top, there is a blue header with the CCPS logo (an open book) on the left and the text "CCPS Portal" on the right. Below the header, a red error message reads: "Sorry! It appears that your user account does not have access to register for CCPS network use." Underneath the message is a login form with two input fields: "Username:" and "Password:". Below these fields is a blue button with the text "Sign On". At the bottom of the form area, there is a note: "Students: Please login using your Student ID# and Network Password".

- Logging in with an invalid username and/or password will display the screen shown below. Please verify that you typed your username and password correctly.

SIGN IN TO WI-FI NETWORK
