Purpose

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Instructional Support Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the related career cluster.

The purpose of this individualized job preparatory program is to provide specialized career education for students with significant cognitive/learning disabilities who, in addition to instructional accommodations, require modifications to the CTE program in order to meet individual interests, abilities, and learning needs. The goal is integrated competitive employment in the student’s chosen occupation. The program is individualized for each student and documented in an individualized plan of study (IPS). Instruction is competency-based with integrated academic, technical, and problem-solving skills. The IPS consists of standards and benchmarks selected from one or more CTE programs to create an individualized plan of study for each student. Students, who have already completed equivalent coursework (standards and benchmarks) at the secondary level (9001810), should be enrolled in Specialized Career Education, Advanced (S990006). Documentation of standards and benchmarks previously mastered should be reviewed in order to develop an individualized plan of study that further guides the student toward his or her employment goals.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Program Structure

This program is divided into a series of three courses that comprise an Occupational Completion Point (OCP). Each course includes standards and benchmarks (selected on an individual basis) from one or more of the Career and Technical Education Programs. These standards and benchmarks must be taught in an industry certified environment or using industry standard equipment. Course content includes but is not limited to: determining employment goals; demonstrating employability and self-advocacy skills; using technology, tools, equipment, and supplies safely and correctly; and, demonstrating personal productivity. Each course may include Job Shadowing, OJT, and Internships to further strengthen the student's learning experience throughout the career decision-making and job preparation process.

The particular outcomes and student performance standards which the student must master to complete each course must be specified on the IPS on an individualized basis. This instruction provides each student the opportunity to prepare for industry certification as stated in his/her IPS.

Once the individualized standards and benchmarks are met for a course, the student is reported as a completer. After completion, the student may either enter employment or move to the next course with a new set of individualized performance standards listed in the IPS. A student who is not able to complete the standards and benchmarks listed in his or her IPS in one semester may re-enroll in the same course the following semester in order to master the required standards and benchmarks. The IPS should be reviewed on a regular basis to determine student progress and/or the need for revision. This is a terminal program; therefore, once all three courses are completed, an OCP is awarded and the student would: enroll in Specialized Career Education, Advanced (S990006); enroll in a CTE program of his or her choice; or, transition to employment.

The three courses in this program have been assigned course numbers in the SCNS (Statewide Course Numbering System) in accordance with Section 1007.24 (1), F.S. Career and Technical credit shall be awarded to the student on a transcript in accordance with Section 1001.44(3)(b), F.S.

The following table illustrates the postsecondary program structure:

OCP	Course Number	Course Title	Teacher Certification	Length	SOC Code
A	SLS0460	Specialized Career Education, Basic 1	ANY CTE FIELD OR COVERAGE	150 hours	SOC applicable to related CTE program
	SLS0461	Specialized Career Education, Basic 2		150 hours	
	SLS0462	Specialized Career Education, Basic 3		150 hours	

Common Career Technical Core – Career Ready Practices

Career Ready Practices describe the career-ready skills that educators should seek to develop in their students. These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

1. Act as a responsible and contributing citizen and employee.
2. Apply appropriate academic and technical skills.
3. Attend to personal health and financial well-being.
4. Communicate clearly, effectively and with reason.
5. Consider the environmental, social and economic impacts of decisions.
6. Demonstrate creativity and innovation.
7. Employ valid and reliable research strategies.
8. Utilize critical thinking to make sense of problems and persevere in solving them.
9. Model integrity, ethical leadership and effective management.
10. Plan education and career path aligned to personal goals.
11. Use technology to enhance productivity.
12. Work productively in teams while using cultural/global competence.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Special Notes

Documentation of mastery of the student performance standards must be maintained. An Individualized Plan of Study (IPS) must be maintained for audit purposes.

Career and Technical Student Organization (CTSO)

CTSOs are the intercurricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered. A student should be encouraged to join the related CTSO.

Cooperative Training – OJT

On-the-job training is appropriate but not required for this program. Whenever offered, the rules, guidelines, and requirements specified in the OJT framework apply.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Note: postsecondary curriculum and regulated secondary programs cannot be modified.
