Agriculture

Today we planted rosemary, carrots, beans, lavender, lettuce, kale, tomatoes, marigolds, peppers, tomatoes, marigolds, edamame, and coleus. We fertilized the plants and watered them.

Next week we will weed water and hope that our seeds germinate.

Tropical

Today we started by welcoming Ms. Sally. We also planted seeds vegetables, flowers, beans, squash, potatoes, cucumbers, carrots, lettuce tomatoes, red romaine, lavender and basil.

We watered the plants after that.

Arid

Today we planted all sorts of different plants like lettuce, lavender, curry, kelp and carrots. After we cut leaves and branches to put in the churner and we made soil. Some of us planted tomatoes, pole beans, peas, and green beans. We planted two pots of amaranth.

Wetlands

Today we planted our square foot garden bed. We planted lettuce, marigolds, string beans, radishes, potatoes, edamame and rosemary. We made labels so we know what we planted. We watered plants. P.S. we took pictures so our leaders would know who we are!
