### EXECUTIVE SUMMARY:

The Facilities Management Department uses continuing contracts for a variety of professional services to complete facilities-related projects throughout the District. Applicant firms submitted their qualifications for one or more of the six professional services listed in RFQu 24-088. The Technical Screening Workgroup reviewed, scored, and ranked the applicant firms' qualifications based upon the evaluation factors listed in RFQu 24-088. Those firms selected and not selected are recorded on the attached tabulation sheet (list). Board approval of this list does not guarantee the selected firms future work. Upon Board approval, the pre-qualification process of these firms is complete. The Facilities Department will select from the list of pre-qualified firms for future work as needed. In accordance with Florida Statute 287.055, the value of construction projects and planning, design, and study professional services cannot exceed \$7,500,000.00 and \$500,000.00 respectively. Projects whose value exceeds the Board approval threshold will be presented to the Board for approval.
