

SB261 – Print Incident Detail – from S289

REPORT DESCRIPTION:

This batch process is used to produce listings of students who have discipline incident records on file. Event information and any actions recorded will be printed on the report. The parameters on the request card provide the ability to select students on either Current School of Enrollment or Incident School. In addition, the report may be limited to Discipline Incidents that occurred during a specific range of dates.

The ability to print duplicated and unduplicated counts is also provided. Unduplicated means that if a student has more than one occurrence of a specific Incident Code, only the most current occurrence will print.

REQUEST DESCRIPTION:

This request will show incident detail for school 1234 for school year 2009. It will be sorted by the Reported By person.

SB263 – Discipline Action Detail – from S289

REPORT DESCRIPTION:

This program is used to produce a report of actions that were taken in response to a Discipline Event. For the Action Detail to be comparable to the Action Summary, specify the Event School in the selection criteria. The report is action related as opposed to incident related. However, the incidents associated with the Discipline Actions are also printed.

The parameters on the card provide the ability to print duplicated and unduplicated counts. In the duplicated report, if no Actions were reported for an Event, the Action Code will contain ‘**’ and the message, “No Action Taken” Will print in the description. In the unduplicated report, only Events that had Actions recorded will be printed.

REQUEST DESCRIPTION:

This card will produce a detailed report of all Action Codes for all active 2nd grade students at school 1234.
