# SB520 – Multipurpose Cumulative GPA Report – from S510

## REPORT DESCRIPTION:

This batch submission will produce various reports, depending on the way the card is submitted. The report can be limited to students within a specific GPA range. It can be printed with Local or State GPA. If Local GPA is printed it can be a weighted or unweighted GPA. Class rank, credit attempted and quality points are also printed on the report.

## REQUEST DESCRIPTION:

This request will produce a report of all 12<sup>th</sup> grade students at school 1234 and their Local, weighted GPA. This report will show class ranking in rank order.

Note: To get a list of Earned Credits for students, use T (type) = S (state), W/U = U (unweighted). The heading on the column will be 'Attempted Credit' but it will be the same as 'earned credit' since State Unweighted GPA does not include any course with a grade of F.

## **SB534 – Student Grades Printed from S517 – from S517/F2**

---

### **REPORT DESCRIPTION:**

The F2 Print key from the S517 – Student Grades panel will produce 2 types of report. After pressing the F2 Print key, you will be required to enter either 'S' (summary) or 'D' (detail). The summary report will look very much like the S517 panel and the detail report will look very much like the S518 panel.

On the following pages you will find a sample of each type of report. New code of L will be under the CW1 column if credit is withheld for Sem 1 and under the CW2 column if the credit is withheld for Sem 2. If there is a Y under the CM column it means that the semester grades have been combined for a year long grade.

### **REQUEST DESCRIPTION:**

There is no request card for these 2 reports. They are produced by pressing the F2 Print key on the S517 Student Grades panel.

### **SORT SEQUENCES:**

There is no sort sequence.

# SL507 – Print Secondary Honor Roll – from L100

## REPORT DESCRIPTION:

This batch submission is used to create Honor Roll reports for secondary schools. It is also used to create the Honor Roll file that is sent to the Naples Daily News. The reports can be run for grading period grades or final grades. The selection of students can be limited to specific grades, conduct or GPA range. The report can also be used to pull data only on migrant students by using sort E.

## REQUEST DESCRIPTION:

This request will create a Session Honor Roll for the second grading period for school 1234. It will include grading period grades from 1<sup>st</sup> and 2<sup>nd</sup> grading periods and the exam grade. When calculating, grading period grades will count 2/5<sup>th</sup> and the exam grade will count as 1/5<sup>th</sup> of the calculated GPA.

Note 1: A cumulative session GPA may be calculated by entering 'S' under P/F and 'Y' under C.  
When S is selected the grading period must be 02, 04, 06 or 08.

Note 2: If you want to prevent students taking career placement courses 7980120 or 7980130 from appearing on the honor roll use sort sequence 1 instead of A, 2 instead of B, or 3 instead of C.

# SL510 – Print Elementary Honor Roll – Middle School Version – from L100

## REPORT DESCRIPTION:

This batch submission is used to create Honor Roll reports for elementary schools but has been modified to allow Middle Schools to print various reports. From this panel Middle Schools are able to print an A/B (or any combination of grades) report. They can also print a report that show how many of each grade (A, B, C, etc) a student received for a specified grading period or has received Year-to-Date.

Note: If more than one grade is entered in the Grades field students must have at least one of each to print on the report.

The total number of each conduct code received (O, S, N and U) will print on all Middle School reports.

## REQUEST DESCRIPTION:

This card will create a Middle School A/B honor roll report for the 3<sup>rd</sup> grading period (SI = 05).

Changing the C (Current or Year-to-Date) field to “Y” will create a list of students who have received A’s and B’s (must have at least one of each) Year-to-Date.

Leaving the Grades field blank will produce a report that shows how many of each grade students received either for the specified grading period or Year-to-Date.

# SL543 – Athletic Eligibility Report – from L100

## REPORT DESCRIPTION:

This report will be used to determine whether or not a student is eligible to participate in school athletic activities based on grades and GPA.

Note: If you set PDtl to Y, to print the courses/grades on the report, you will see a "/" print beside those courses which received a split grade. Those are the courses for which the student received a final grade of F but upon evaluation of each half of the grade the student passed at least ½ of the course. This report will use the split grades for calculation of athletic eligibility since those are the grades which were posted into academic history. All other grades, except those received on year-long alternating day courses, will reflect the final grade received for the course. For year-long alternating day courses the appropriate session average will be printed and used in the calculation.

## REQUEST DESCRIPTION:

This card will produce a list of students who have Semester GPA and/or CUM GPA at the start of the school year (after roll) below 2.000. The card below will print a summary report.
