RETOOL YOUR LIFE! • START A NEW CAREER!

• NEW TRAINING CENTER IN NAPLES FLORIDA •

The Center for Manufacturing Excellence (CME), is an extension campus of the Immokalee Technical College. CME is a collaborative training facility with Collier County Public Schools, the Naples Chamber of Commerce, and local manufacturing leaders. There is a projected shortage of skilled machinists throughout the country for the next 20+ years, with a big demand in Southwest Florida due to an increase in manufacturing in the region. CME was established through the demand to supply local industries with skilled workers in all areas within the manufacturing field, such as Machining, Mechatronics, CNC operations, and advanced machining and manufacturing.
