

STUDENTS WHO WALK HOME and THERE'S INCLEMENT WEATHER:

In Florida, it is not unusual to have afternoon thunderstorms, and very often these thunderstorm arrive at OES right before and/or during OES dismissal. At OES (and throughout CCPS), we use a lightening sensor system called **"Thor Guard"**. Because student safety is our top priority, if our Thor Guard system shows lightening in the OES area, we will not release our walkers to walk home. Instead, parents (or their designee) are required to come to school to pick their "walker(s)" up. OES administration does our best to send out a telephone call as soon as possible notifying parents of our decision to hold our walkers here at school, due to severe weather conditions. **Please plan to pick up your child in our car line by 3:10 pm on these inclement days. Again, this is only when lightening and severe storms are present during dismissal.**
